

## 21.5" Self-Service Kiosk: R5 Model

### All In One Automated Self Ordering Kiosk

Reddie's **All in One Automated Self Order Kiosk** is ideal for QSRs (Quick Service Restaurants), supermarkets, cosmetic stores, pharmacies, convenience stores, hotels and healthcare facilities. From self order and self checkout to visitor check-in, the R5 model allows customers to take charge of their own experience.

From increasing profits, to lowering labor costs, to serving more customers, to reduced wait time, Reddie's R5 Self Order Kiosk will instantly improve your customer's experience.

Wall Mounted Version

### Integrated Thermal Printer

Reddie's **R5 All in One Automated Self Order Kiosk** comes complete with a built in, reliable 80mm thermal printer which provides clear, quick and smooth self-service printing supported by large paper rolls and quick printing speed.

## Other Features

### Ten Point Touch

Equipped with full industrial grade 10 point touch capacitive screen ensures precision and guarantees that customers enjoy a distinguished visual and tactile experience. This makes for a vivid and smooth self-ordering experience.

### Seamless Integrations

Reddie's R5 model is so versatile it integrates with leading POS systems like Toast, Square, Clover, Revel, Aloha NCR and over 45 additional systems. This means changes to your menu can be made through your chosen POS effortlessly.

### Variety of Models

Our model of self order kiosk offers a variety of options for installation and convenience and is ideal regardless of your store's layout. Our freestanding, desktop and wall mounted models are also easy to set-up.

### Self Pay

A more convenient self checkout experience can be provided by the self pay option. This means orders go straight from the kiosk to the line without the need for further interaction with a cashier to complete the sale.
