

Food Truck IP65 Outdoor Display

Ultra High Brightness

Reddie's Ultra High Brightness 43" Digital Display boasts 3000 nits of brightness and is ideal for any outdoor condition. It is attention-grabbing and showcases your mouth-watering menu items beautifully. Easily update your menu offerings and prices on the fly and make printing costs a thing of the past.

Floor Stand Model

Also available as a floor stand model with wheels for optimal convenience. The floor stand model requires no installation. Floor stand with wheels is not included but is available at an additional cost.

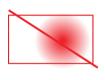

Non-Blackening

Unlike regular monitors or tv screens, Reddie's Outdoor Food Truck Digital Signage displays maintains their brightness and color accuracy over time. The screen's picture quality does not diminish even with prolonged exposure to sunlight and other environmental factors.

Landscape or Portrait Orientation

Our Outdoor IP65 Food Truck Displays are as diverse as your brand and can be mounted in either landscape or portrait orientation. This makes it a good fit irrespective of your truck size.

Content Management System

Our Content Management System requires no special downloads and is fully accessible via the internet with the use of a computer. By logging in at <u>www.reddieportal.com</u> you may make edits to your playlist or menu board layout. Edit items, prices, videos, specials, or images immediately. This is by far the easiest way to make updates to your content or menu layouts on the go!

Plug & Play

Updating content is easy with the Plug & Play option. Our displays allow you to upload your menu board layouts to a USB which is then copied unto your display. This is always an option where there is no internet connection.

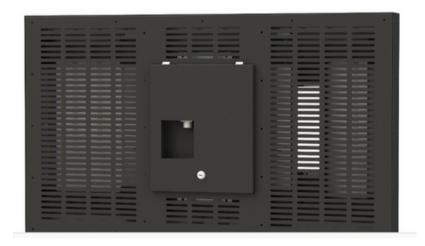

Key Features

Ultra High Brightness

Non-Blackness

Landscape & Portrait Orientation
