-  Stable & Reliable
-  WiFi

Floor Stand Model

Also available as a floor stand model with wheels for optimal convenience. The floor stand model requires no installation. Floor stand with wheels is not included but is available at an additional cost.

Food Truck

Other Features

Non-Blackening

Unlike regular monitors or tv screens, Reddie's Outdoor Food Truck Digital Signage displays maintains their brightness and color accuracy over time. The screen's picture quality does not diminish even with prolonged exposure to sunlight and other environmental factors.

Content Management System

Our Content Management System requires no special downloads and is fully accessible via the internet with the use of a computer. By logging in at www.reddieportal.com you may make edits to your playlist or menu board layout. Edit items, prices, videos, specials, or images immediately. This is by far the easiest way to make updates to your content or menu layouts on the go!

Landscape or Portrait Orientation

Our Outdoor IP66 Food Truck Displays are as diverse as your brand and can be mounted in either landscape or portrait orientation. This makes it a good fit irrespective of your truck size.

Plug & Play

Updating content is easy with the Plug & Play option. Our displays allow you to upload your menu board layouts to a USB which is then copied unto your display. This is always an option where there is no internet connection.
