- 24/7 Usage
- Plug & Play
- Rugged Castors
- Wheel Locking
- 3-Year Warranty

*When used indoors ** Double-Sided Option ***Single-Sided/Double-Sided

Single-Sided

The Reddie Outdoor Battery A-Board features a single-sided 43-inch display with 1500 nits brightness, ensuring clear visibility even in direct sunlight. Built with a heat-resistant LCD panel that withstands temperatures up to 105°C, it's perfect for harsh outdoor conditions. Additionally, it's an IP65-rated device which means it is dust-tight and can withstand jets of water. Powered by a 43,200 mAh battery, it delivers 14 hours of outdoor use (25hrs indoor), making it ideal for high-impact, portable advertising.

- Operating System: Android 11
- Brightness: 1500 nits
- Power Option: Cable or Rechargeable 43,200 mAh battery
- Rated IP65
- 43" High TNI LCD Panel
- Resolution: 1080 x 1920
- Vision Enhancer
- Wheel Brakes
- Speakers

Double-Sided

The Double-Sided Reddie Outdoor Battery A-Board features two 43-inch screens with 2000 nits of brightness, ensuring visibility from both angles. Powered by a much larger 120,000mAh battery, it offers 14 hours of outdoor use (25hrs indoor). Built with a heat-resistant LCD panel (up to 105°C) and a IP55-rated enclosure means it's protected against dust and low-pressure water jets. It's durable, portable, and perfect for high-impact, dual-sided advertising to get attention from two different angles for potential customers.

- Operating System: Android 13
- Brightness: 2000 nits
- Power Option: Cable or Rechargeable 120,000 mAh battery
- Rated IP55
- 43" High TNI LCD Panel
- Resolution: 1080 x 1920
- Vision Enhancer
- Wheel Brakes
- Speakers

Fully Portable

Thanks to its lightweight enclosure, rugged castors, and sturdy design, this innovative display can be effortlessly moved by just one person, offering both portability and durability for seamless outdoor use.

Robust Enclosure

These displays feature a tempered glass front for panel protection and a molded polymer rear for improved portability. The display, support, and castors are fixed, unlike more traditional A-Boards, ensuring supreme durability and reliability in any environment.

Vandal Proof

The Reddie Outdoor Battery A-Board features a robust outer casing crafted from mild steel and thermally toughened glass, ensuring durability and protection. All controls and openings are discreetly concealed, making them inaccessible to passersby for added security and a sleek, tamper-proof design.

Flexible Power Options

The devices can be powered by either the internal lithium-ion battery for portable, cord-free operation or by the supplied power cord for continuous use, ensuring reliable performance in any setting.

CONTENT MANAGEMENT OPTIONS

Non POS Integrated Software: Reddie Portal

Remotely manage your Outdoor Battery A-Board and its content with our Content Management System. The first year of Reddie Portal is absolutely free.

POS Integrated Software: Jumbilin by Reddie

Integrate your Outdoor Battery A-Board and your ordering technology for benefits like menu board sync and more. No software installation is required, simply login to Jumbilin's Portal and update your screens remotely, using an internet connection.

Plug & Play

If there is no internet connection for the above Content Management options or they are not required, simply load images and videos on a USB stick, insert it into the display, wait for your content to copy over, and then remove it. Your images and videos will now play in a continuous loop.
